

Department of "Hygiene and Environment, Epidemiology"

In 1992, the Department of General and Social Hygiene and Healthcare Organization was established under the leadership of T.M. Tleumuratov Cand.Med.Sci.

In 1995, it merged with the Department of Microbiology and Immunology and operated under the name "Microbiology, General and Social Hygiene, Healthcare Organization."

From 1997, the department was headed by A.Ya. Kenjebaev Dr.Med.Sci.

Doctors of Sciences, Candidates of Sciences, and Assistants have been working at the department for several years.

In those years, Professor A.Ya. Kenjebaev's "Ustyurt Plague Hotspot," "Kyzylkum Plague Hotspot," "Problems of Cholera Prevention in the Republic of Karakalpakstan," T.I. Ismailov's "Development of the Healthcare System in the Republic of Karakalpakstan," Prof. B. Jolibekov's monograph "Changes in the Soil Cover and Landscapes of the Southern Aral Sea Region Due to Anthropogenic Impact" has been published.

The department collaborates with the Ministry of Health, the Institute of Water Problems, the Karakalpak Research Institute of Clinical and Experimental Medicine, the Republican Center for State Sanitary and Epidemiological Surveillance, and medical colleges.

For example, the head of the laboratory of the Institute of Water Problems of the Academy of Sciences of the Republic of Uzbekistan, E.I. Chembarisov, together with Prof. L.G. Konstantinova, A. Madraimov Cand.Med.Sci, A.B. Kurbanov Cand.Med.Sci, Senior Researcher Under the authorship of K.M. Atanazarov, "The Most Important Problems of Water Use and Drinking Water Quality in the Republic of Karakalpakstan" was published. A.B. Kurbanov, A. Madreimov Cand.Med.Sci, Senior Researcher S.M. Mambetullayeva, Candidate of Biological Sciences A methodological development on the topic "Analysis of the prevalence of acute intestinal infections in the Republic of Karakalpakstan" was published under the authorship of K.M. Atanazarov, Head of the Department of Nukus Medical College No. 1, A. Ibragimova, Deputy Chief Physician of RMSEBO G.T. Niyazova, V.K. Absattarova, Assistant of the Department of NF TashPMI N.N. Abdullina.

In the 2006-2007 academic year, the department was reorganized into the Department of General and Social Hygiene, WHO, Hygiene of Children and Adolescents, Medical Sociology, History of Medicine and Valeology. The department was headed by Candidate of Medical Sciences, Chief Sanitary Doctor of the Republic of Karakalpakstan A. Madreimov, assistants D. Ataxanova, G. Ajiniyazova, O. Shelepova, Sh. Yunusova, K. Kosibayeva.

Since 2008, the department has been called "Hygiene, Marketing and Management."

At the same time, the composition of the teaching staff changed, and G. Niyazova, V. Absattarova, A. Abdreymov, and D. Rustamov joined the ranks of assistants. During these years, assistants G. Niyazova and V. Absattarova defended their candidate dissertations in medical sciences. Several scientific articles have been published by the faculty of the department.

Our department's recent achievements include a grant for 2009-2011 titled "Assessment of Environmental Pollution Level in the Republic of Karakalpakstan and its Impact on Human Health." In addition, in December 2009, the head of the department, A. Madreimov, successfully defended his doctoral dissertation on the topic "Epidemiological aspects of reducing acute diarrheal diseases in the conditions of the Aral Sea region." Thus, our department has been making a significant contribution to increasing the scientific potential of our branch.

Starting from the 2011-2012 academic year, the Department of "Hygiene, Marketing and Management," starting from the 2012-2013 academic year, the Department of "Hygiene and Epidemiology," and starting from 2014, the Department of "Hygiene and Epidemiology" separated from its structure under the name "General Hygiene." The Nukus branch of the Tashkent State Pedagogical Institute was reorganized on August 30, 2014, by the decision of the Academic Council No. 1 "Optimization of the composition of the Branch's departments."

2014-2024 - PhD. The Department is working on a project on the topic "Environment and Health" for 2022-2028 in cooperation with the University of Korea Koryo. Therefore, in 2023, the department's name was changed to "Hygiene and the Environment." The department's scientific results are reflected in 7 published monographs, more than 150 scientific articles, and 20 methodological guidelines.

The department's scientific findings are being implemented in the healthcare practice of the Republic of Karakalpakstan.

In September 2024, the department was merged with the Department of Epidemiology and reorganized into the Department of "Hygiene and Environment, Epidemiology." Absattarova V.K Cand.Med.Sci.

Department's teaching staff

In our department, professors and teachers: Head of the Department Absattarova V.K., Professor Madreimov A., Professor Hans Moshhammer (University of Vienna, Austria), Assoc.Prof. Ataxanova D.O, PhD, Niyazova G.T. Cand.Med.Sci, Daulbaeva K.K. PhD,, assistants: Koyanbaeva S.Kh., Kallieva T.A., Kurbaniyazov N.T., Zaydullaeva M.O., Orazimbetova A.T., Kadirbergenova S.Zh., Sayfullaeva G.A., Umbetov F.M., Shaniyazov A.Zh.
